I. GENERAL INFORMATION

1. Proposal Objectives:

Platte City and City Hall, are currently pursuing a Local PRI/SIP Service. The upgrade involves replacement of the existing Centrex system that is currently in place and porting the existing numbers.

As Platte City considers both the PRI or SIP, the final decision ultimately will place heavy emphasis on the best solution possible. Cost therefore, will not be the only parameter evaluated in the choice of provider.

Initially submit your most appropriate solution accompanied with your best cost as, once bids are submitted subsequent re-costing will not be accepted. The submitted bids will also be given strong consideration for future upgrade capabilities and data equipment purchases. The chosen vendor must demonstrate a history of market stability and strong vendor/client partnerships.

Platte City must develop a confidence level with the selected vendor to ensure a strong partnership now and going forward.

2. Current Environment:

Platte City Police, City Hall, Public Works and the Parks and Recreation Departments are currently on Centrex lines with Fairpoint Communications. We plan on adding a local PRI or SIP at City Hall located at 400 Main Street in Platte City, Missouri. All four locations listed will share the PRI/SIP. Currently there is a internet connection that is 15mb up and 15mb down.

If you wish to get updates or changes to this RFP you will need to submit a request to the technical director listed below.

3. Issuing Authority:

This Request for Pricing (RFP) is issued by:
